Notes to the Condensed Consolidated Interim Financial Statements (unaudited) For the Six Months Ended December 31, 2023 (Expressed in Canadian Dollars)

1) CORPORATE INFORMATION AND CONTINUANCE OF OPERATIONS

Canter Resources Corp. (the "Company") was incorporated under the British Columbia Business Corporations Act on March 7, 2018. The Company is engaged in the exploration and evaluation of resource properties in Canada and United States.

The Company's corporate office and principal place of business is Suite 400 – 1681 Chestnut Street, Vancouver, British Columbia, V6J 4M6. On December 31, 2021, the Company's common shares began trading on the Canadian Securities Exchange ("CSE") under the ticket CRC.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of exploration and evaluation assets in Canada (Saskatchewan) and the United States (Montana and Nevada). The Company is in the process of exploring and evaluating its exploration and evaluation assets and has not yet determined whether these assets contain ore reserves that are economically recoverable. The recoverability of amounts shown for exploration and evaluation assets is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

These financial statements have been prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has incurred losses since its inception and has an accumulated deficit of \$1,025,263 as of December 31, 2023 (June 30, 2023 – \$586,390), which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. If the Company is unable to raise the necessary capital and generate sufficient cash flows to meet obligations as they come due, the Company may have to reduce or curtail its activities or obtain financing at unfavorable terms. Furthermore, failure to continue as a going concern would require the Company's assets and liabilities be restated on a liquidation basis which would differ significantly from the going concern basis. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern. Such adjustments may be material.

Acquisition of Altitude Ventures Corp. ("Altitude") (Note 3)

On November 10, 2023, the Company entered into an amalgamation agreement (the "AVC Amalgamation Agreement") with Altitude and 1447235 B.C. Ltd., the wholly owned subsidiary of the Company, to acquire all of the issued and outstanding common shares of Altitude by way of a three-cornered amalgamation (the "AVC Acquisition"). The Acquisition was completed on November 21, 2023 (the "AVC Acquisition Closing Date").

These unaudited condensed consolidated interim financial statements of the Company for the six months ended December 31, 2023 were approved by the Board of Directors on February 28, 2024.

2) SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

<u>Statement of compliance to International Financial Reporting Standards</u>

Basis of presentation

These unaudited condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries. This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended June 30, 2023.

Comparative Figures

Certain comparative figures have been reclassified in accordance with the current period's presentation.

New accounting standards

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the International Accounting Standards Board (IASB) or International Financial Reporting Interpretation Committee that are mandatory for accounting periods beginning on or after July 1, 2023. The Company does not expect that any new or amended standards or interpretations that are effective for annual periods beginning on or after July 1, 2023 will have a significant impact on the Company's results of operations or financial position.

ACQUISITION OF ALTITUDE VENTURES CORP.

As discussed in Note 1, on November 21, 2023, the Company closed the AVC Acquisition by issuing 18,020,001 common shares of the Company (the "Consideration Shares") with fair value of \$14,235,801.

The AVC Acquisition constitutes an asset acquisition as Altitude does not meet the definition of a business, as defined in IFRS 3, "Business Combinations" and is accounted for in accordance with guidance provided IFRS 2, "Share-Based Payment".

In connection with the AVC Acquisition, the Company incurred transaction costs of \$28,707.

Prior to the closing of the AVC Acquisition, the Company advanced a loan of US\$135,000 to Altitude to satisfy certain payment obligations under the option agreement of the Columbus Lithium-Boron Property (Note 4). The amount was eliminated upon the consolidation.

Pursuant to the AVC Amalgamation Agreement, 7,220,000 of the Consideration Shares are subject to a lock-up period (Note 5).

The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. 9) FINANCIAL INSTRUMENTS

Fair value

liabilities

Financial instruments are classified into one of the following categories: FVTPL, amortized cost and FVTOCI.

Set out below are the Company's financial assets and liabilities by category:

	December 31, 2023	FVTPL	Amortized costs	FVTOCI
FINANCIAL ASSETS	<u> </u>	\$	<u> </u>	\$
ASSETS				
Cash	3,771,576	-	3,771,576	-
FINANCIAL LIABILITIES	. ,		, ,	
LIABILITIES				
Accounts payable and accrued liabilities	(710,448)	-	(710,448)	-
	June 30, 2023	FVTPL	Amortized costs	FVTOCI
	June 30, 2023 \$	FVTPL \$	Amortized costs	FVTOCI \$
FINANCIAL ASSETS			Amortized costs	
FINANCIAL ASSETS ASSETS			Amortized costs \$	
			Amortized costs \$ 4,279	
ASSETS	\$	\$	\$	
ASSETS Cash	4,279	\$	\$	
ASSETS Cash Deposit	4,279	\$	\$	

The carrying values of cash, deposits, and accounts payable approximate their fair values due to the relatively short period to maturity of those financial instruments.

IFRS 13 establishes a fair value hierarchy that reflects the significance of inputs used in making fair value measurements as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3: Inputs that are not based on observable market data.

As at December 31, 2023 and June 30, 2023, there were no financial assets or liabilities measured and recognized in the statement of financial position at fair value that would be categorized as Level 1, 2 and 3 in the fair value hierarchy above.

The Company has determined the estimated fair values of its financial instruments based upon appropriate valuation methodologies.

9) FINANCIAL INSTRUMENTS (CONTINUED)

Financial risk management

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk includes cash and amounts receivable.

The Company's cash is held at a large Canadian financial institution in interest bearing accounts. The Company has no investments in asset-backed commercial paper.

The Company's maximum exposure to credit risk is the carrying value of its financial assets.

Management believes that the credit risk concentration with respect to these financial instruments is remote. Cash based in Canada are accessible. The Company's amounts receivable balance does not represent significant credit exposure as it is principally due from the Government of Canada.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Company manages liquidity by maintaining adequate cash balances to meet liabilities as they become due.

As at December 31, 2023, the Company had cash of \$3,771,576 and accounts payable and accrued liabilities of \$710,488.

Market risk

The significant market risks to which the Company is exposed are interest rate risk, foreign currency risk, and price risk.

Interest Rate Risk

The Company's interest rate risk principally arises from the interest rate impact of interest earned on cash. The Company is not exposed to significant interest rate risk relating to its cash.

9) FINANCIAL INSTRUMENTS (CONTINUED)

Financial risk management (continued)

Market risk (continued)

Foreign Currency risk

The Company is exposed to currency risk to the extent that monetary assets and liabilities held by the Company are not denominated in Canadian dollars ("\$" or "CA\$"). The Company has not entered into any foreign currency contracts to mitigate this risk.

The Company's cash, amounts receivable, and accounts payable and accrued liabilities are held in CA\$, United States dollars ("US\$") and Euro (" \in "); therefore, US\$ and \in accounts are subject to fluctuation against the CA\$.

The Company's financial instruments were denominated as follows as at December 31, 2023:

	CA\$	US\$	€
Cash	3,704,980	50,274	-
Accounts payable and accrued liabilities	(334,048)	(228,964)	(50,000)
	3,370,932	(178,690)	(50,000)
Rate to convert to \$1.00 CA\$	1.00	1.32	1.46
Equivalent to CA\$	3,370,932	(236,705)	(73,098)

Based on the above net exposures as at December 31, 2023, and assuming that all other variables remain constant, a 10% change of the CAD against the US would change profit or loss by approximately \$31,000.

Commodity price risk

The Company is exposed to price risk with respect to commodity prices. The Company's ability to raise capital to fund exploration and development activities may be subject to risks associated with fluctuations in the market price of commodities. The Company is not exposed to significant other price risk.
